whether all the powers of Government shall be concentrated in the hands of the General Government-the States being reduced to the condition of counties-and a consolidated despotism be thereby established; or, whether those rights of local self-government which our fathers enjoyed and which we inherited from them, and without which there can be no real liberty, no wise government, no public economy, 1 no light taxation, shall be preserved .-A powerful faction, represented by a majority in Congress, have conspired to overthrow the free and beneficent institutions of our fathers, and to substitute therefor an Oligarchy of privileged classes, crushing the mass of the people and all individual liberty, under the weight of a despotic and unrestricted General Government. To effeet this object, they, in plain violation of the Constitution, exclude eleven States from representation in Congress, and insist upon conferring upon negroes the right to vote-not out of regard to the negro, but because they expect to be able, with their money, to control his vote, and athereby perpetuate their party ascendency. Let every man who is opposed to the schemes of the conspirators, who cherishes the institutions founded by our fathers, who appreciates the necessity and benefits of local self-government, who is opposed to seeing the great State of Ohio shorn of her dignity and reduced to the dependent condition of a county, or who is opposed to Negro Suffrage, join with the Democracy in rescuing our courtry from the grasp of

the Malignants. By order of the Democratic State Central Committee of Ohlo. JOHN G. DUN, Chairman.

They are perfectly safe, do not get out of order, and can be managed by any one, are portable, can be used in any part of the house, as they

MAKE NO DIRT, NEED NO PIPE, And will not heat a room. Heretofore, no Stove has been constructed where the amount of heat could be instantly controlled and regulated to any degree desired. This, in Baking,

Boiling, do., Is especially one of the features of the Petroleum Cook Stove! And exempts the ladies from the annoying heat in summer cooking. We own the right for the entire State, and are manufacturing and supplying the Stove at the rate of 100 per week. It is now used in the families of the leading merchants, mechanics, munisters, lawyers, and others of this city. It is an admirable thing for
